OVERHEAD DOORS

C.H.I. Images

Big and bold.

There's more to your garage than just a door.

When we designed our images doors, we started with a blank slate. That gave us the freedom to create something entirely different, something like you've never seen before. A garage door where everything you see is as vivid and detailed

as your imagination. And as you begin to look at an Images door the world around you seems to disappear, and before you know it you've lost yourself in this big, beautiful display. Where will your imagination take you?
